

Liquid Coating

Water-Based Coatings

AccuLac™ water-based coatings provide photographic and digital images with a durable water and scratch resistant surface. The AccuLac range has been engineered for the Accu-18XE and has an environmentally friendly formulation.

AccuLac™ 1100

This water-based acrylic coating offers an economic way to protect your ink-jet and photo album graphics. It is especially suited for use with photographs and is available in either a clear or luster finish.

AccuLac™ 1250

Use this water-based acrylic coating for an easy-to-clean solution to enhance and protect inkjet and photographic images. AccuLac 1250 produces less odor than other coatings and is available in a clear, luster and matte finish.

AccuLac™ 1400

This water-based urethane coating is not only easy-to-clean, but also has a low odor making it ideal for preserving and enhancing inkjet and photographic images. It is available in a clear finish only.

The UltraCoat™ family of high performance clear coats have been designed to provide maximum protection and enhancement on printed graphics on a variety of substrates. Apply these clear coats with the AccuCoat™ 1600 or 3300, manually or with spray applicators.

UltraCoat™ Fleet

Engineered specifically for fleet graphics of all types, including pressure-sensitive cast & calendared materials, flex vinyl applied to stretch frames and heavy tarpaulins used for lorry (truck) curtains. UltraCoat Fleet is easy to clean, has a low VOC content and is extremely stable in all environments.

UltraCoat™ Giclee

UltraCoat Giclee coatings are formulated for use with most top coated, water resistant Fine Art Papers or Canvas when printed using solvent, eco-solvent or water-based pigment inks. UltraCoat Giclee can be used for manual (paint brush, paint pad, fine nap roller or spray gun), as well as machine application via the Giclee Sign Coater.

UltraCoat™ Interior

With a gloss level of only "2", this coating offers the lowest reflective properties of any single component water-based coating on the market today! UltraCoat Interior is ideal for durable indoor wall covering applications or any indoor application requiring the look of an ultra matte surface.

UltraCoat™ Sign & Banner

A cost-effective coating for short to mid term indoor/outdoor sign & banner applications and is offered in a choice of Matte and Gloss. Due to the low viscosity and quick dry time, this coating is ideal for manual application, machine or spray applicators.
